

Washington State Criminal Sentencing Task Force
Reentry & Reducing Recidivism Work Group
Meeting Summary: March 19, 2020
Digital Conferencing Technology

Attendees:

- Russ Brown (alt. for Jon Tunheim),
Washington Association of Prosecuting Attorneys
- Chris Poulos (alt. for Lydia Flora Barlow),
Statewide Reentry Council

Facilitation Team: Molly Stenovec and Hannah Kennedy

WELCOME & AGENDA REVIEW

Due to light turnout, the Facilitation Team suggested that those on the call use the time to check in regarding subject matter expert assignments, the summary table, or any other questions.

The following bullets reflect key points from that discussion as well as emails from individuals to the facilitation team:

- Many of the subject matter experts sent resources to Molly in advance of the meeting—those resources will be posted on the Task Force website.
- Given that many of the members of this working group have much of their attention on their agency/organizational response to the COVID-19 response, the facilitation team will support the group doing some of this work asynchronously, in addition to providing opportunities for virtual gatherings.
- Those on the call noted that, with the passage of bills on positive achievement, concurrent/consecutive supervision, and swift and certain count, there could be an opportunity for this working group to consider the following questions: what does meaningful supervision look like? What does successful reentry look like?

NEXT STEPS & ACTION ITEMS

- **Chris Poulos** will send Molly resources and potential recommendation language for his categories.
- **The Facilitation Team** will post resources shared by the subject matter experts; and send out an updated summary table informed by resources and recommendations sent by working group members.
- **The Facilitation Team** will also provide specific questions/tasks for the working group members.
