

GROW KNOWLEDGE. GROW IMPACT.

Whether you're a home gardener, community volunteer, teacher, green industry professional or simply curious about sustainability, Green School offers a foundation in what really matters. Learn how soil health, climate resilience, ecological gardening, and smart pest management all connect to a thriving environment.

By understanding the science behind responsible stewardship, you'll gain the tools to make lasting change—right in your own backyard.

Green School is where curiosity meets action. Perfect for lifelong learners, environmental advocates, and anyone looking to garden with purpose.

Washington Green School is an annual online WSU Extension course that teaches research-based gardening and environmental stewardship practices.
