Clean Water introduction

Program Priority Clean Water: The Master Gardener Volunteer Program teaches integrated pest management to minimize polluted runoff.

Please rate your knowledge on the following statements before attending this event and after attending the event.

Survey purpose

You are receiving this survey because you attended a WSU Extension Master Gardener Program event. Your responses will

help us better serve our communities with relevant research-based gardening information.

Date

Date you attended this event. *(If this was a multi-day event, please record the first day only.)*

Date (mm/dd/yyyy)

County

Where did the educational event you attended take place?

Clean water short term outcomes

My understanding of the importance of clean water on the health and well-being of people, local wildlife and natural ecosystems.

	Not knowledgeable at all	Slightly knowledgeable	Moderately knowledgeable	Very knowledgeable	Extremely knowledgeable
Before this event	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
After this event	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

My knowledge about the increased threat that human activity poses to water resources.

Before this event

After this event

Changes I will make to minimize water pollution

Steps I will commit to take to minimize polluted runoff as a result of this event. *(Check all that apply)*

- Have my soil tested.
- Apply fertilizers as needed and by soil test results.
- Read and follow pesticide labels when applying pesticides.
- Practice Integrated Pest Management (IPM).
- Take steps to minimize erosion in my landscape.
- Employ gardening practices to reduce chemical inputs i.e. native plants vs. turfgrass

Quotes and testimonials

Please tell us the most important thing you learned at today's event.
