What Constitutes an Educational Activity?

This FAQ is a favorite lately, because in order to qualify for the 4-H fair this year, youth must have participated in at least one county-level educational activity for each project. We hope these criteria will clear up your questions. A qualifying educational activity...

- ❖ Is project related
- ❖ Is open to all project members in the county
- ❖ Involves hands-on activity
- ❖ Involves some youth choice
- ❖ Has been announced in a timely manner

If your club would like to host a qualifying activity, please talk with the program leader.

Anyone who feels they have met the requirement by attending an alternative educational activity may contact the 4-H office to discuss.
