

SNOOKS MEMORIAL AWARD

Please nominate a **JUNIOR** member who you feel is the most improved rider in the junior age division. Snook was an aged pinto pony. She has a head the size of a horse and a mid-sized pony body. When she was brought to our home she was already in her thirties, but sometimes had more cunning and energy than her young riders. Many kids went to fair on Snooks, some of whom are now grown and have children of their own. Snooks passed away in 1989 and we, in her memory and the memory of all other horses in 4-H that have been loved and lost, would like to present a small memento to the most improved Junior rider.
