

Millions of tons of clothing, appliances, electronics, and other repairable items get thrown away every year!

At our **Repair & Sustainability Fair** events, volunteer “Fixers” stitch and fix various items to help the community reduce landfill waste, save money, and learn new skills!

Join our team of **Fixers and Supporters!**

Our next Repair & Sustainability Fair is on October 5, 2024!

Become a WSU Lewis County Master Recycler Composter!

In partnership with Lewis County Solid Waste Utility and WSU Lewis County Extension, Master Recycler Composter volunteers provide educational outreach to promote public awareness of a variety of environmental and social issues like soil and water pollution, natural resource & energy conservation, and reducing, reusing, & recycling solid waste.

WSU Lewis County Master Recycler Composters
