Prefix	Course	Crs.	Grade	Sem.	Notes
		3			

Plus 9 upper division credits of system based electives approved by advisor:

Prefix	Course	Crs.	Grade	Sem.	Notes
		3			
		3			
		3			

Endorsements designate the subject matter an individual is authorized to teach.

The above requirements are for the teaching endorsement only and do not necessarily fulfill the requirements for a major/minor. The student is responsible for all course prerequisites and for satisfying departmental requirements for graduation.

Students must take all core Agriculture courses for a total of 35 credits from the College of Agricultural, Human and Natural Sciences with a grade of C or better. Students must also meet the College of Education certification requirements for general certification and entry into the program.

One year of occupational industry experience (2,000 hours) in the subject area other than teaching in the past 10 years is required for the Career & Technical certificate in Agriculture. Volunteer hours can only be used for the 300 hours of current industry experience. This is not a WSU graduation requirement, but is a requirement to obtain a CTE certificate to teach Agricultural Education in Washington.
