There are many virtual programs out there and King County has several learning links.

Unfinished business:

Martin suggested using a portion of the money in reserve to buy in the stock market considering the current dip. He will research the possibilities of using \$5000. It was noted that other counties have portfolios. Angela's daughter would be interested in

helping in the research. There might be other youth also interested so Martin and Abby will coordinate.

Back up plans: T J suggested if there is no fair of having a possible virtual live action. We should talk to Helen about a virtual action. Possibly the Fair board would use open links or zoom.
