

STATISTICAL DATA OF THE RURAL AREA
ON
SAN JUAN ISLAND, SAN JUAN COUNTY, WASHINGTON

Data compiled August 4, 1953, are the results of part of field training and work done by a group of students, while taking a field course in Geography (#499) at the University of Washington Summer Camp, under the supervision of Drs. J. Sherman and M. Griffith.

Included in this table are: The farmers' name, owners' and tenants' names, the size and type of farms.

others:

of subs..... 4
 # of 1g & hay 3
 # of 1b & 1g 1
 # of 1b & poult. 1
 # of 1a & 1g 1
 # of 1a(goats) 1
 # of 1c & 1a 1
 # of 1a & poult. 1
 # of 1c & 1g 1

NOTE:

Some of the classifications were arbitrarily set up according to predominant kinds of livestock, acreage and type of work because many sources of information were unreliable; such misinformations are due to inaccuracy of either the interviewers or the interviewed.

NON-FARMS
(Resorts, recreational, and others)
