

# Landowner Opportunity Conservation Grazing Project

Photo by Stephen Bramwell

**Are you looking to  
enhance the economic &  
environmental value of  
your land?**

**Before & After example of site improvements.  
Photos by Jake Yancey**

Funded by the WA Coast Restoration and Resiliency Initiative

## PARTICIPATION MEANS...

- Development of a sustainable grazing plan for your site
- Get matched with a rancher/shepherd to help reach production & environmental goals
- Invasive plant removal & native planting
- Monitoring change over time in the plant, pollinator & avian communities
- Get connected with financial resources for site infrastructure (fencing, watering systems, etc.)
- Supporting local Veterans who are working on this project

*Project partners include: Center for Natural Lands Management, EcoStudies Institute, Lewis Conservation District, Natural Resources Conservation Service, Quamash EcoResearch, Thurston Conservation District, WA Department of Veteran Affairs, & WSU Extension*
