About Food Hubs

Food hubs provide aggregation, distribution, and marketing for source-identified food products from regional food producers. They are often farmer-owned cooperatives.

School District Sales
\$455,100

Food Hubs provide the aggregation, distribution, and technical support necessary to get food from the field to the cafeteria effectively.

Total Producer Payments
\$8,301,470

Food Hubs allow farmers and food producers to expand their market reach, enter new markets, and access more customers.

Food Access Org Sales
\$3,208,900

Food Hubs make farm to food bank a reality by supporting food banks with the aggregation, distribution, and technical support services.
