

Center Body

Instructions:

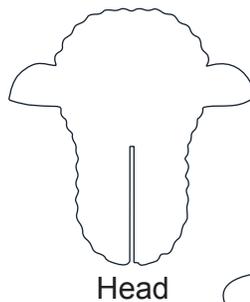

1. Print on heavy white letter size paper.
2. Use scissors or X-acto knife to cut parts as close to outlines as possible.
3. Width of slits should be same thickness as paper. A single scissor cut may suffice. If slit is too wide it will be too loose.
4. Color parts as desired.
5. Assemble parts by sliding slits together. Slit length and width may need to be slightly adjusted.
