

Garfield County Noxious Weed Control Board
690 W. Main St. Pomeroy WA. 99347
509-843-1913

Dear Garfield County Noxious Weed Cost Share Cooperators and Landowners:

Cost Share rate will vary from year to year based on applications being submitted county-wide. The 2021 Cost Share rate paid by the GCNWCB was 19% .

Please read the enclosed Cost Share Application Form.

The Board has voted to do the following in 2022:

- Cost share will only be for chemicals used to control **Yellow Starthistle and Rush Skeltonweed, Poison Hemlock, and Scotch Thistle.**
- No cost sharing on CRP, CREP, or agricultural cropland.
- All chemicals must be paid for by the cost share cooperator, and will be partially reimbursed based on a percentage determined by weed board.
- Application forms for cost sharing under the above terms should be received by Jim McKeirnan **before** spraying is started.
- Completion of treatment forms should be received by Jim McKeirnan by October 1st, 2022.
- The Operator should receive a stamped copy of their cost share application from the GCNWCB. Please keep that copy as your receipt that the GCNWCB has received your Cost Share application.
- Those of you that spray late in the fall, chemical cost can be cost shared in 2023.
- Individuals should contact Jim McKeirnan if there are other weeds that the Weed Board should consider for future cost share consideration.

Sincerely,

Jim McKeirnan, GCNWCB Coordinator
