

# Worksheet #1: Pre-BAT Inventory

Consider these questions and decisions as you think about forming a local Broadband Action Team:

**1.1 Leadership:** Are there already broadband champions in your community? Is there more than one? Who are they?

**1.2 Team:** Does your community already have a formal or informal broadband planning team? If so, who are they, and can you coordinate your efforts?

**1.3 Existing Plans:** Does your community have a broadband plan? Who has that plan?

**1.4 Online Presence:** Does your broadband planning team have a website? Is the broadband plan available online?

## Pre-BAT Questions and Decisions

- Will we have an advisory group that provides insight and direction on broadband projects?
- Will we have our meetings open to the public?
- Will planning documents and meeting notes be publicly available?
- How will we document stakeholder input?
- Will project plans be regularly adjusted to reflect input from stakeholders?
- How will stakeholder plans include engagement with people who have concerns or who may be critical of our efforts?
- How will we determine stakeholder engagement activities to be appropriate to each audience?
- Will public-private partnerships be a part of our broadband plan?
