Worksheet #6: Defining Your Goals & Objectives

Example goals and objectives:

→ Ensure the BAT is made up of representatives from frequently underrepresented populations to ensure a holistic approach is taken in both digital equity barriers and solutions

→ Address the results of a needs assessment for underrepresented communities

→ Identify existing broadband service providers in our community

→ Develop an asset inventory of ongoing digital equity activities in our community

→ Identify areas that are not well-served by existing infrastructure

→ Identify areas where other digital equity needs are a barrier to access (affordability, know-how)

→ Identify infrastructure barriers and solutions

→ Identify digital equity barriers to accessibility and solutions

→ Increase participation in the Affordable Connectivity Program

→ Provide outreach and digital education programs to the aging populations in our community

→ Launch or enhance a digital support program at the local library

The goals and objectives for our team's or Tribe's broadband and digital equity planning process are:
