Worksheet #8: Local Asset Inventory

Your team can use the Broadband Local Asset Inventory Google Form found in your team's Google Drive folder (reach out to your regional coordinator for access) to request the data outlined below from local utilities and municipalities to support the collection of data from these organizations that may provide useful for local broadband planning efforts. If these groups are unable to fill out the Google Form you can manually record their responses and upload them into your team's Broadband Asset Inventory Google Drive Folder and corresponding spreadsheet.

Organization Name: _____

Contact Information: _____

Our organization currently has:

■ GIS Department

■ Telecommunications staff

■ Current or forthcoming capital projects, which would allow providers to lay new fiber at lower costs (e.g., road construction, water, or sewer projects);

    ■ If yes, please describe:

■ We have utility Infrastructure Assets that may be of benefit to broadband deployment efforts:

    ■ Broadband or Telecommunications Networks

    ■ Dark Fiber

    ■ Conduit

    ■ Existing duct systems

    ■ Public rights-of-way, including roads and bridges

    ■ Towers

    ■ Tall Buildings
