

WASHINGTON STATE  
UNIVERSITY

**BROADBAND DATA FOR ALL**

# Who am I?

- Assistant Director of the Digital Equity and Broadband program at Washington State University
- Recovering IT person, no I will not help you fix your printer
- Curler, yes like with the stones and ice

How did we get here?

WWSU

# Broadband DATA Act

- Fully known as the “Broadband Deployment Accuracy and Technological Availability Act”
- Required the FCC to collect data about the availability of broadband services at the individual location level
- Collect that data at least twice a year
- Be compatible with common GIS software – Literally in the text of the act!!!
- It’s actually small enough to read: [Text - S.1822 - 116th Congress \(2019-2020\): Broadband DATA Act | Congress.gov | Library of Congress](#)

# National Broadband Map

The screenshot displays the FCC National Broadband Map interface. At the top left, the FCC logo and text "Federal Communications Commission" are visible, followed by the title "FCC National Broadband Map" and a "Sign In" link at the top right. The main area is a map of the United States, including insets for Alaska and Hawaii, showing broadband availability data as a blue density overlay. A central search bar is titled "Search by Address" and contains the placeholder text "Enter address". Below the search bar is a navigation menu with four buttons: "Location" (with a location pin icon), "Providers" (with a group of people icon), "Area" (with a map icon), and "Download" (with a download icon). The map shows state abbreviations and major cities. At the bottom left is the Mapbox logo, and at the bottom right is the copyright notice: "Haiti Dominican © Mapbox © OpenStreetMap Improve this map".

# What is it?

Hint: It's two things

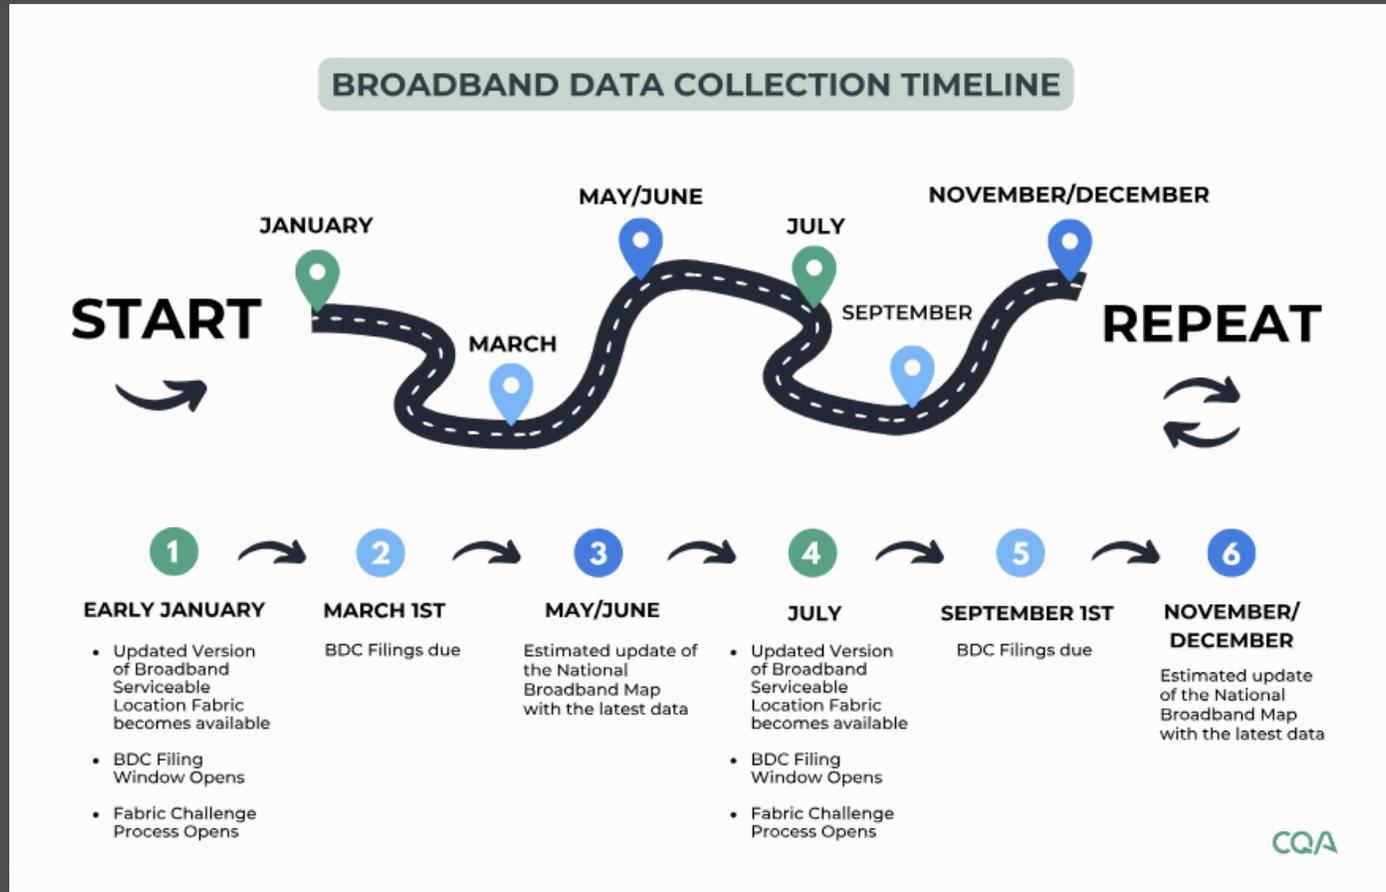

# It's two things

- Fabric – Released twice a year
  - It's a super fancy point layer
  - What is in it?
    - Unique Location ID
    - Address
    - Unit Count
    - Is it a BSL
    - Building/Land Use Code
    - Confidence Score
    - Census Block
    - H3 Res 9 Hexagon ID
    - Lat/Long
- Availability – Released every 2 weeks
  - It's an attribute table for Location IDs
  - What is in it?
    - Provider FRN and Unique Provider ID
    - Brand Name
    - Location ID
    - Technology providing service
    - Upload/Download Speed
    - Low latency
    - Residential/Business Service offering
    - USPS State Code
    - Census Block
    - H3 Res8 Hexagon ID

# BDC Timeline

# Key Dates 2024

## National Broadband Map: 2024 Key Dates

ISP filing window opens for fixed and mobile availability data as of Dec. 31, 2023.

**March 1st**  
ISP filing deadline for fixed and mobile availability data as of Dec. 31, 2023.

**March 8th**  
Best opportunity for bulk challenges of location data to be included in **Ver. 5** of the Fabric.

Broadband Map updated to show Fabric **Ver. 4** location data and availability data as of Dec. 31, 2023.

**Bulk availability challenges** accepted to Dec. 31, 2023 data.

**Individual challenges** accepted to both availability and Fabric datasets.

Fabric **Ver. 5** is released to licensees to prepare availability data and location challenges.

Bulk Fabric challenges accepted to **Ver. 5**.

ISP filing window opens for fixed and mobile availability data as of June 30, 2024.

**Sept. 3rd**  
ISP filing deadline for fixed and mobile availability data as of June 30, 2024.

**Sept. 9th**  
Best opportunity for bulk challenges of location data to be included in **Ver. 6** of the Fabric.

Broadband Map updated to show Fabric **Ver. 5** location data and availability data as of June 30, 2024.

**Bulk availability challenges** accepted to June 30, 2024 data.

**Individual challenges** accepted to both availability and Fabric datasets.

# What does it look like?

I heard it's really bad

# What does it look like? (December 22 edition)

# This is a BSL

WSU

So are these

This too?

SSU

WV SU

POBODY'S  
NERFECT

VSU

# What does it look like? (December 22 edition)

# What does it look like? (December 23 edition)

# What disappeared?

WSU

# But what about on the south side?

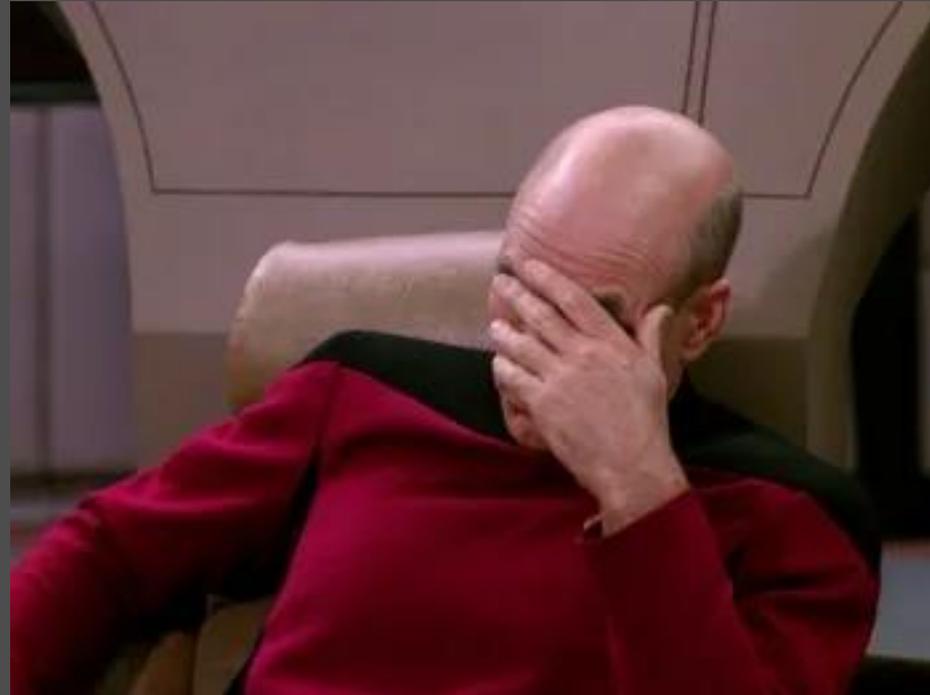

# But what about on the south side?

WSU

This is quite tough.

WV SU

I want the Fabric, how do I get it?

Hint: It takes a few steps

# How do I get it?

- Obtain an FCC Registration Number (FRN)
  - Mine is 0033104902
  - It isn't that hard to get one. It only takes about 15 minutes.

WSU

# How do I get it?

- CostQuest Process
  - Fill out the form
  - Wait for them to get back to you (couple of days)
  - Work through your legal team (if you have one) to review the license
  - Download the CSV and process it
  - Do fun stuff!

WSU

# How would I use it?

Hint: Pay attention to your license

WWSU

# FCC Licenses

- For ISPs – Tier 2
  - Use for filings
  - Correct BDC data
- For Government Entities – Tier 2 Government
  - Use for challenges
  - Correct BDC data
  - Designated Entity may use fabric for planning
- For Others – Tier 4
  - Standard Agreement – Generating challenges
  - Research Agreement – Public policy/Academic research

WWSU

# NTIA Licenses

- Tier C
  - State Broadband Office
- Tier D
  - ISP or public entity participation
- Tier E
  - Public use for Challenge process

WSU

# Process

- Download and enrich the CSVs
- Relate public data from the FCC to the licensed data points
- Do the analysis that you are looking to do
  - Remember your license limitations

WSU

# ERD Diagram

**What can I do without doing that?**

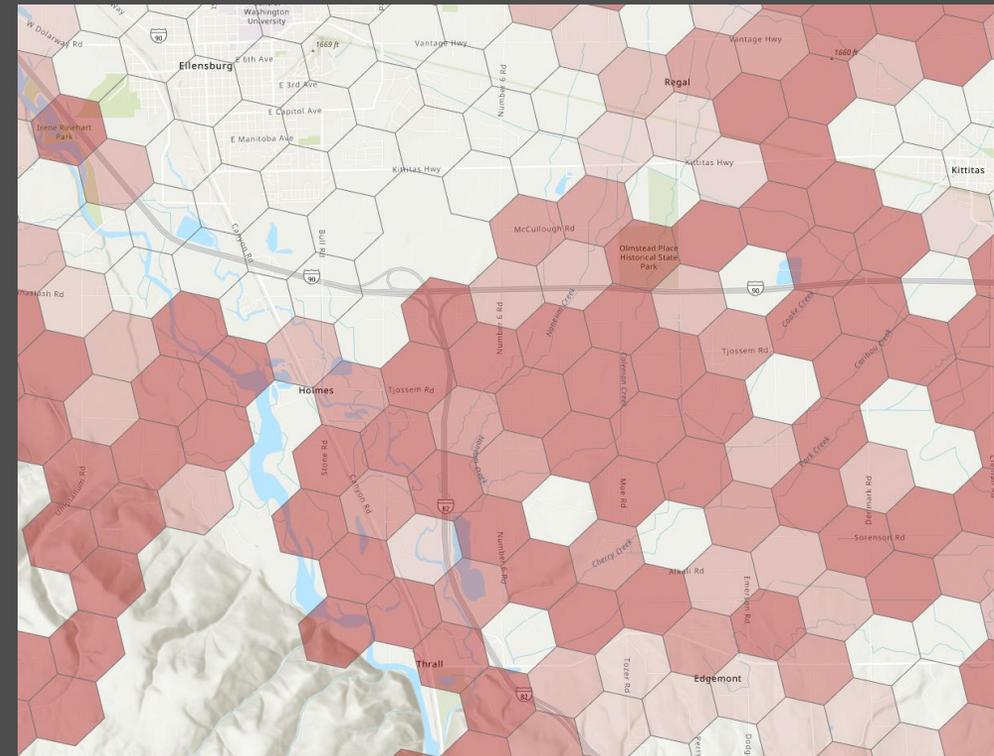

That sounds like a lot of work to get.

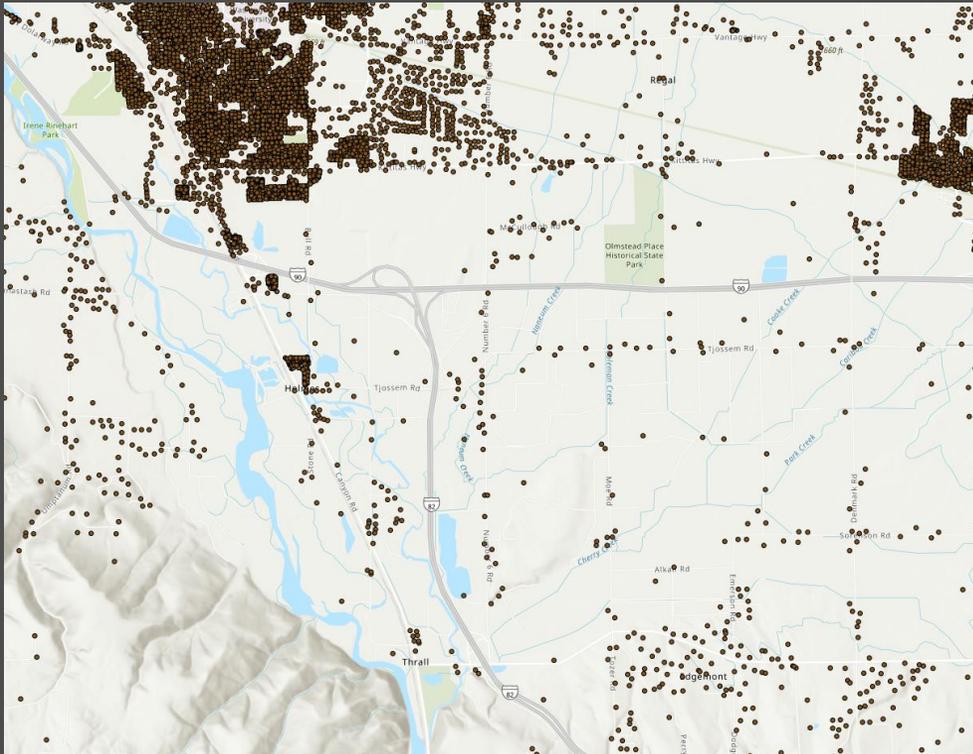

WWSU

# Pat Ryan's Living Atlas

- Fantastic data set from ESRI
- Has State, County, Tract, Block Group, Block, and H3R8 levels of geography
- [The Broadband Data Collection and ArcGIS Living Atlas of the World](#)
- [FCC Broadband Data Collection December 2023](#)

# Site Address Point

- SAP Layer from the OCIO office
- State level dataset
- Pretty good
- Missing some counties
  - Looking at you Stevens, Lewis and Cowlitz
  - Shout out to Columbia

# REMIX!

- Using the Site Address Point layer you can create a very accurate understanding of availability
- Great tool for creating service areas, more on this in a bit

WSU

# Other Datasets

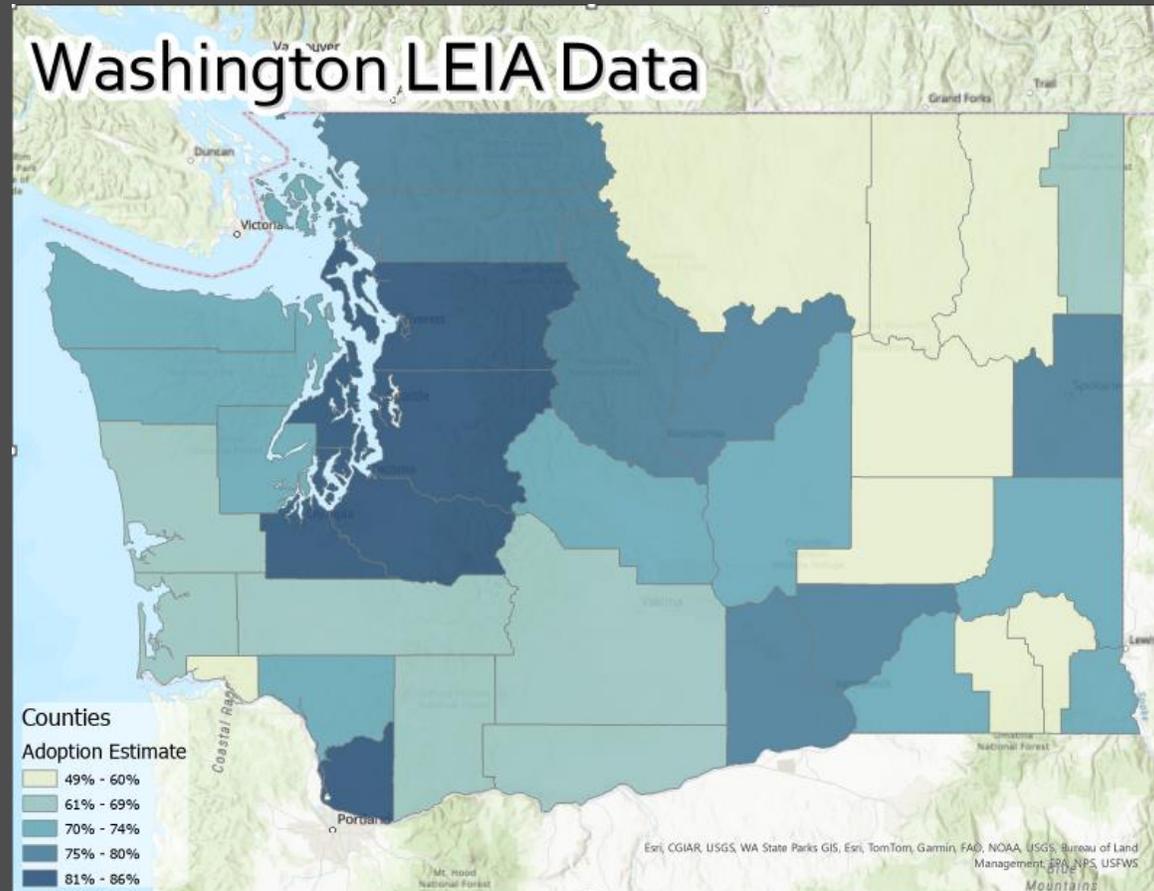

WWSU

# Local Estimates of Internet Adoption (LEIA)

- Census Bureau Experimental Dataset
- [2022 Local Estimates of Internet Adoption \(LEIA\) \(census.gov\)](https://www.census.gov/data/tables/2022/leia/2022-leia.html)

WSU

# Local Estimates of Internet Adoption (LEIA)

# Local Estimates of Internet Adoption (LEIA)

- US Census is currently seeking feedback on this data.

WSU

**But what else could I do?**

Lots of stuff!

# But what else could I do?

- Provider footprint analysis
- Growth area analysis
- Public engagement
  
- Many other ideas!

WSU

**But why should I care now?**

I mean it is a cool dataset and all

WWSU

**BEAD**

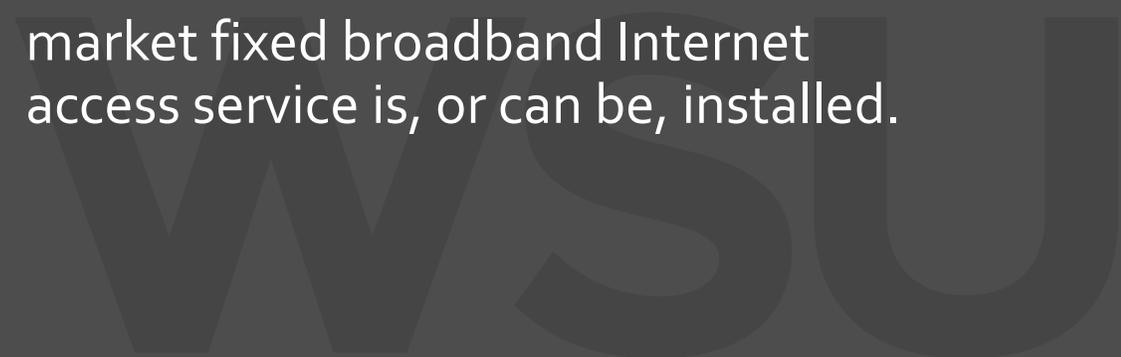

You have 1.23 Billion reasons to care

WWSU

# Definitions

- Unserved: Under 25mbit down/3mbit up
- Underserved: Under 100 down/20 up equal to or above 25 down/3 up
- Served: Equal to or faster than 100 down/20 up
- 95<sup>th</sup> percentile latency less than 100ms for all definitions
- Able to be installed within 10 days
- Technologies: Wireline or Licensed Fixed Wireless
- Washington specifics:
  - 25/3 for every resident by 2024
  - 1g/1g for every CAI by 2026
  - 150/150 for every resident by 2028
- What is a BSL?
  - A business or residential location in the United States at which mass-market fixed broadband Internet access service is, or can be, installed.

# Washington Timeline

- Challenge Process: Mid April 2024
- Final project areas: Now?
- NOFO: Soon (Late October 2024)
- Round 1: November 2024
- Round 2: January 2025
- Round 3: March 2025
- Final Proposal: April 2025
- Projects Start: 2024 (Maybe)
- Projects Finish: 2028

WSU

# Correcting the Map

- Won't help with Federal allocations
- Will help with allocations of state funding
- Could help with making accurate Project Areas – More on this in a minute
- Will help with follow on programs

WSU

# Community Anchor Institutions

What are they?

# Community Anchor Institutions

- K-12 Schools public or private (FCC E-rate or National Center for Education Statistics [NCES] ID Required)
- Higher Education (NCES ID Required)
- Libraries (FCC E-rate or American Library Association [ALA] member libraries and their branches)
- Health care facilities that have a Centers for Medicare and Medicaid Services (CMS) identifier
  - Health clinic
  - Hospitals
  - Mental health facilities
  - In/Out-patient treatment centers

WSU

# Community Anchor Institutions

- Government Organizations
  - Tribal government buildings (TBD after further conversations with tribes and further reviews of the Community Action Plans)
  - State
    - WorkSource
    - DSHS - Community Services Offices
    - Community corrections
  - County
    - County Courthouse
  - Local
    - City/town hall
- Public Housing Organizations
  - Public housing as determined by state Public Housing Agencies (PHA) and enumerated by the US Department of Housing and Urban Development (HUD).
  - Housing listed on the National Housing Preservation Database

WSU

# Community Anchor Institutions

- Community Support Organizations that facilitate greater use of broadband service by vulnerable pop, including, but not limited to, low-income individuals, the unemployed, children, incarcerated and aged individuals.
  - Youth Centers
  - Senior Centers
  - Job Training Centers
- Public Safety
  - Fire houses
  - Emergency medical service stations
  - Police stations
  - 911 PSAPs
  - Detention centers and correctional facilities

WSU

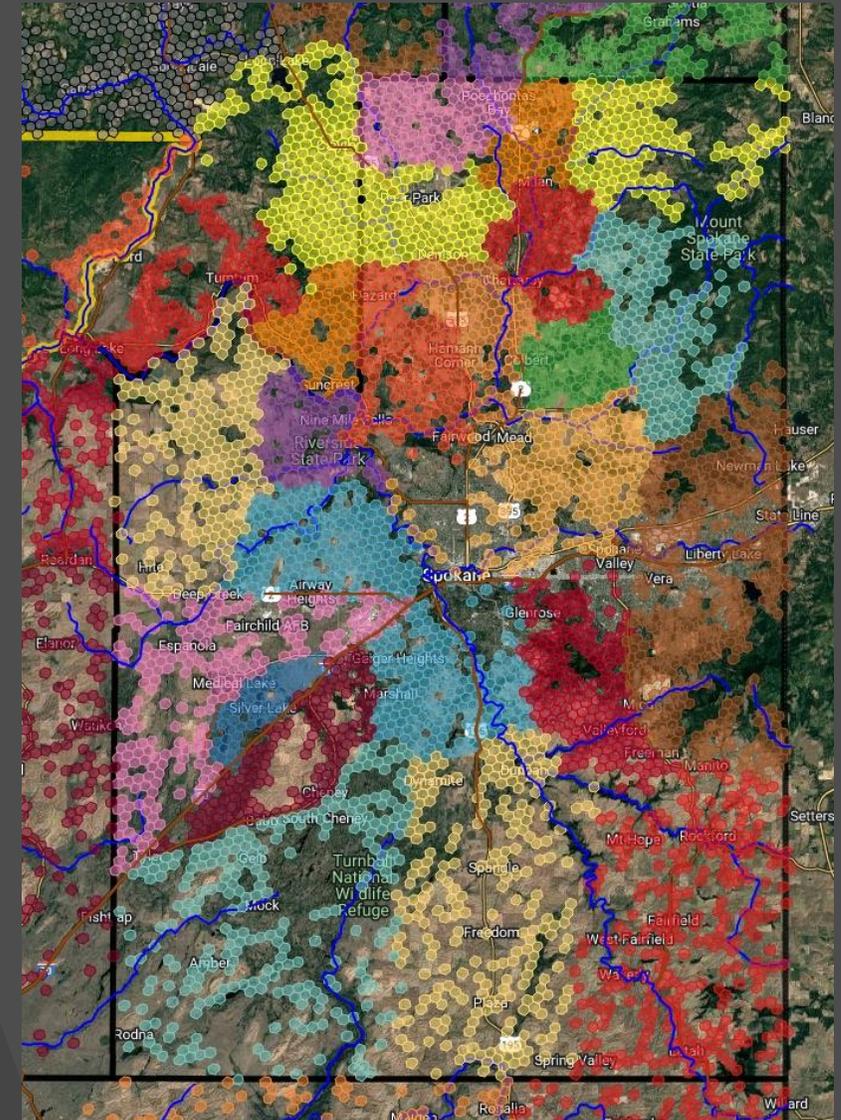

# Project Areas

WWSU

# Project Areas

- Are going to be developed as a part of BEAD Proposals
- Currently being worked on by WSBO
- Changes are likely

# Projects

- Every area will need to be applied for individually.
- Cohorts
  - Municipality
  - Infrastructure
  - Community
  - Everyone else!
- Each of these groups have an interest in the outcome of BEAD.

WSU

# Beyond BEAD

There will be another

WWSU

**There will be another**

And this data will guide the investments.

WWSU

# Further Resources

- <https://broadband.wsu.edu>
  - Office Hours
  - Questions
- BDCToolbox – Toolbox for ArcGIS that I will be putting out by the end of Fall.
- Suggestions and questions are welcomed?

WSU

**Thank you for your time today**

**WWSU**
