

# BECOME A COMMUNITY SCIENTIST

## GET INVOLVED IN SCIENTIFIC RESEARCH

### Join The Project

Join the 'Western Redcedar Dieback Map' on iNaturalist.

### Take Pictures

Take four pictures:

- the whole tree
- the bark
- cones
- any potential ailments

*Tip: Turn on location services when taking photos for an accurate observation location!*

### Add Observations

Add observations and make sure to select or tag the project, then answer the questions provided as best as possible.
