ENVIRONMENTAL  
HEALTH & SAFETY

JUL 05 2002

RECEIVED

**Letter of Authority - 1**  
**Contract N08664**  
**Interagency Agreement Between**  
**State of Washington, Department of Health**  
**And**  
**Washington State University**

Contract N08664 between the State of Washington, Department of Health (DOH) and Washington State University (WSU), recognizes WSU's agreement with Whitman County. WSU also operates facilities in many counties in Washington, as recognized elsewhere in the Contract. At the Biennial Meeting between WSU and DOH held on May 9, 2002, DOH and WSU agreed the Contract should be changed to provide WSU the opportunity to enter into agreements with additional local public health departments and districts where WSU provides or receives environmental health and safety services for its facilities. DOH and WSU also agreed to make this change using the Amendments By Letter of Authority section of the Contract.

Therefore, Attachment A to Contract N08664 is hereby amended by replacing the paragraph in Attachment A entitled Operating Principles - "Agreement with Whitman County" with the following paragraph:

"Agreements with Local Health Departments and Districts. WSU may enter into agreements with local public health departments and districts in areas of the state in which WSU operates facilities regarding the coordinated delivery of environmental health services at the local WSU facilities. It is the parties' intent that agreements that WSU makes with those local public health departments or districts be consistent with this Contract."

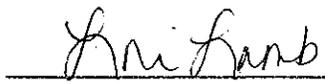

**IN WITNESS WHEREOF, the Parties have executed this amendment to Attachment A of the Contract, to be effective on the date last signed.**

**Department of Health**

**Washington State University**
