* Payroll will be locked. All processes and approvals must be fully completed.

**This Retro Run will happen 1 time per pay cycle and capture all prior to current cycle transactions that have been submitted and approved; i.e. Job changes, Salary Changes, Late appointments.

Understanding the Payroll Document Schedule

**Payroll
Deadline/Time
Entry Lock*
5pm
Pacific Time**

This is when all time must be approved by the supervisors in order to be paid out for the upcoming paycheck. Time that has not been approved will not be paid until the following paycheck provided it is approved by that deadline.

This is for the CURRENT cycle only. For Retro, see blue section below.

****Best Practice** would be for departments to require employees to submit by 12 noon or earlier to allow supervisors time to process.

**Time Entry
Unlocked for prior
period
adjustments**

This is when employees are able to go back into their past time blocks and make adjustments as needed to previous time blocks on their calendar. The calendar is locked from the 5pm Payroll Lock above until this time to allow time for processing the paychecks.

**Earning
Statements
viewable to
Employees
(3 days before payday)**

This is when all earning statements/payslips are viewable in Workday for employees to see and ensure that they are accurate.

**Payday
Workday Payroll
Processing opens
for next cycle**

This is when we open the next pay cycle and you are able to see the new CR Pay Payroll Accounting Journal Details - In Progress Payroll (aka PEARS) for the new pay cycle we are starting

**** 9AM ** Retro
Run captures all
retro transactions
processed to pick up
for upcoming Pay
cycle**

This is when we run the retro process and any transactions that were processed for any time frame outside of the current pay cycle we are working in need to be approved completely to be processed for the upcoming paycheck. This process would capture time entry changes, salary changes, job changes, late appointments etc.
