

THESIS LAB SELECTION FORM

NIH Protein Biotechnology Graduate Training Program at WSU

Purpose: Align individual thesis lab selections with program and NIH expectations for training.

Task:

- 1) Complete and sign the form. Have your proposed research advisor sign the form.
- 2) Email a signed copy to Matt Peck (matthew.peck@wsu.edu) and Mark Lange (lange-m@wsu.edu).

Your name:

Your Graduate Program/Department:

Name of Selected Thesis Mentor/PI:

Please list your rotations. Please include department affiliation.

- 1)
- 2)
- 3)

By signing this form, the Faculty Advisor (Trainer) understands and agrees:

- 1) To provide the Trainee financial support after training grant support ends.
- 2) To encourage the Trainee's participation in an 8-week (at least) industrial internship. The internship should occur while the Trainee is under training grant support. In exceptional cases when the Trainee interns after Biotech support, the faculty Trainer further agrees to financially support the Trainee's internship (in combination with funds from company).
- 3) To encourage trainee's participation in required Biotech programming.
- 4) To participate regularly in combined Trainer/Trainee and Faculty Mentorship Forums.
- 5) The research project should include a significant protein science or biotechnology component.
