Dental Procedure Discharge Instructions

DATE: _____

Your pet had a dental procedure today.

Since your pet had an anesthetic today, please contact our office if you observe any vomiting, diarrhea, lethargy, or if your pet refuses to eat.

We recommend you try to brush your pet's teeth 2-3 times a week. This will delay the need for any future dental work.

- o Your pet had _____ teeth extracted.
- o Your pet's mouth may be sensitive for a few days.
- o Please feed your pet soft food for _____ days.
- o Please feed your pet normally.
- o Give/Continue oral antibiotics as directed.
- o Please setup a recheck appointment in _____ days.
- o Other:

Medication Administration Instructions:

- o CET Toothpaste
- o Stomadex
- o Maxi-Gard
- o CHX oral cleanser
- o Stan-Gard Fluoride Gel
