Subject: EFSEC's Land Use Consistency Hearing for Tesoro Savage Vancouver Oil Terminal (Application No. 2013-01)

Categories: Blue

May 19, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

EFSEC should also provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Mr. Nathan Jackson
my house
Tigard, OR 97224

May 19, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

The consequences of a hasty decision are too far reaching to rush the process. EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend.
EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds
2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Ms. mary neptune

Subject: EFSEC's Land Use Consistency Hearing for Tesoro Savage Vancouver Oil Terminal (Application No. 2013-01)

Categories: Blue

May 19, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Mr. Charlie Graham

The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Mr. John knipe

Subject: EFSEC's Land Use Consistency Hearing for Tesoro Savage Vancouver Oil Terminal (Application No. 2013-01)

Categories: Blue

May 19, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Subject: EFSEC's Land Use Consistency Hearing for Tesoro Savage Vancouver Oil Terminal (Application No. 2013-01)

Categories: Blue

May 19, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Ms. cheryl wagner

Subject: May 28 site review in Vancouver?

Follow Up Flag: Follow up
Flag Status: Flagged

Hello: the Vancouver City Council workshop today on the resolution strongly opposing the Tesero oil terminal was very well attended. We were relegated to the over-flow room with more than 150 attendees in our over-flow room alone in opposition to this 'development' on our community's waterfront. There were as many in the Council chambers proper from which we were barred.

One of the slides during the City Council presentation indicated that there is a site review by the EFSEC on May 28. I checked your website and it was not listed as an upcoming event. Can you please send information? Is this a public meeting? Will there be an opportunity for public comment? I would respectfully like to speak.

Thank you,
Lynnae Ruttledge

May 19, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

I know there's pressure from the oil industry to push its product by rail to a West Coast terminal, but that doesn't mean you should allow us all to be railroaded in the process. If you really believe in letting the public have an honest chance at making their concerns known, you must cancel and reschedule this hearing. Anything else is just an oily rubber-stamp.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Mr. Ray Wood

May 19, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

Tesoro Savage Vancouver Oil Terminal will have an impact on the entire Columbia River Gorge and surrounding communities, because an increase in oil transport has a strong probability that it will effect the safety of us all.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about

whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

May 19, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

Whoa! What's the hurry? There's a big decision to be made.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Subject: EFSEC's Land Use Consistency Hearing for Tesoro Savage Vancouver Oil Terminal (Application No. 2013-01)

Categories: Blue

May 19, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Ms. Susan Drew

Subject: EFSEC's Land Use Consistency Hearing for Tesoro Savage Vancouver Oil Terminal (Application No. 2013-01)

Categories: Blue

May 19, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

Please allow adequate time for people to submit comments on this important issue.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Mrs. Sheila Dooley

Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Ms. Nancy G johnson

May 19, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

May 19, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

I'm sorry, but the scheduling of this hearing is highly suspect, given the short notice over such an incredibly impactful project. This kind of maneuver does not inspire confidence. In fact, it most clearly signals bribery and fraud. So, please, try to schedule a hearing with a fair amount of notice. For the record, I strongly oppose an increase of either coal or oil through the Columbia River Gorge due to the huge consequences of an accident there, an accident that is only too likely to occur at some point. Not to mention noise and air pollution in the Gorge that will result from more trains coming through. This is one of the most beautiful national scenic treasures we have. It should not be turned into an industrial wasteland. As well the siting of the terminal is inauspicious with other land use in Vancouver. Please don't try to railroad (no pun intended) through this highly sensitive project just because a few people got paid a few thousand dollars.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this

project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. May 19, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Ms. Jackie Johnson

Subject: EFSEC's Land Use Consistency Hearing for Tesoro Savage Vancouver Oil Terminal (Application No. 2013-01)

Categories: Blue

May 19, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Mr. Michael Wilson

May 20, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

Considering the great harm that could be caused by this project to the Columbia River, fish, wildlife and people who have homes and farms on and along the river, SEPA public review would be highly appropriate.

There are many factors to be considered in any decision you may make, like refining the crude at the source to eliminate harm to the environment from dragging the dangerous loads all over the continent on worn and rotting infrastructure in unsafe cars for no practical reason.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Dr. Marcia Denison

Subject: EFSEC's Land Use Consistency Hearing for Tesoro Savage Vancouver Oil Terminal (Application No. 2013-01)

May 20, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Stephen Hocker
13980 SW 158th Ter
Tigard, OR 97224-1265

May 20, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

EFSEC, you are trying to fast-track this terminal because you are being told to do so by richy rich people. You know we people do not want this terminal on the Columbia River and you are without concern or compassion for the people who live in The Gorge and have to listen to noise of trains nite and day, worry about horrible accidents in residential areas, ad infinitum. Coal and oil are finished. We want clean energy not filthy killing energy.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Ms. Judith Nappe

May 20, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Ms. Meryle A. Korn

Subject: EFSEC's Land Use Consistency Hearing for Tesoro Savage Vancouver Oil Terminal (Application No. 2013-01)

Categories: Blue

May 20, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

This, and several other defects, will surely be adequate grounds to challenge any decision you may make in the future. If it's worth doing at all, it's worth doing it correctly. In the interest of fairness, postpone the hearing and reschedule giving all parties adequate time to prepare.

We're pretty sure your in bed with the company. It's best you now wear that relationship on your sleeves.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Mr. Richard Yarnell

May 20, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Ms. Harriet Edith Roberts
