May 20, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Ms. Carole Alexander

This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Claudia Arabasz

Subject: EFSEC's Land Use Consistency Hearing for Tesoro Savage Vancouver Oil Terminal (Application No. 2013-01)

Categories: Blue

May 20, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Ms. Jan Polychronis

May 20, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

What is the EFSEC doing? Are you trying to rush this through? It sure looks like that with how fast you are looking to coordinate a hearing.
The leaders of EFSEC are either tone-deaf to the public or know all too well that the public will be vocal on this issue and are seeking to minimize public input. In either case, the appearance you have created is that either don't listen or don't want to listen.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Subject: EFSEC's Land Use Consistency Hearing for Tesoro Savage Vancouver Oil Terminal (Application No. 2013-01)

Categories: Blue

May 20, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Ms. Sharon Miller

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about

whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Ms. Corinne McWilliams

May 20, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about

whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

May 20, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about

whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Mrs. BERNICE PLUCHOS

Re: Request for the Energy Facility Site Evaluation Council to Cancel and Reschedule the Land Use Consistency Hearing for the Tesoro Savage Vancouver Energy Distribution Terminal (Application No. 2013-01)

Dear Chair Lynch and Mr. Posner,

Columbia Waterfront LLC ("CWLLC") joins in the requests by Friends of the Columbia Gorge, Columbia Riverkeeper and others asking EFSEC to cancel and reschedule the land use consistency hearing for the Tesoro Savage Vancouver Energy Distribution Terminal ("Tesoro"), currently scheduled for May 28, 2014. CWLLC requests that EFSEC cancel and reschedule the hearing in order for the City of Vancouver ("City") to complete its land use review process, and to ensure compliance with the State Environmental Policy Act ("SEPA").

The land use consistency hearing scheduled for May 28 is premature under SEPA. Pursuant to WAC 197-11-535(1) and (4), the hearing must include consideration of the environmental impacts of the proposal, and a copy of the Environmental Impact Statement ("EIS") must be made available at the hearing. Both WAC 197-11-535(1) and (4) are incorporated into EFSEC's rules by WAC 463-47-020. To ensure compliance with state law, EFSEC should reschedule the hearing to a new date after the EIS is available.

Notice of the land use hearing was published in the *Columbian* on May 14, 2014, only fourteen days prior to the hearing. EFSEC's fourteen day public notice impedes the City's ability to thoroughly review and comment on land use consistency. City staff must be given sufficient advance notice of EFSEC's hearing to allow the City to complete its review of the proposed project pursuant to WAC 463-26-090 and 463-26-100. CWLLC understands that the City plans to review the proposed project under its procedures for Type II land use proposals. Under section 20.210.050 of the Vancouver Municipal Code ("VMC"), the City must publish notice of its review and provide notice to the public, and provide a fourteen-day comment period, followed by a fourteen-day comment period for the applicant to respond to comments.

Furthermore, under the City's land use consistency process, the EIS must be made available to the City before the City completes its review. VMC 20.790.130(C) requires that "[w]hen the City is not the lead agency for a proposal, all departments of the City *shall use and consider* . . . the . . . *final EIS of the lead agency in making decisions on the proposal*." (emphasis added). In addition, VMC 20.790.620(D)(1) gives the City the authority to recommend denial of the project based on information contained in the final EIS. To force the City to complete its review of the proposal now, without first making available this required information, would violate the City's procedures and create needless procedural issues.

CWLLC respectfully requests that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice that accommodates full SEPA compliance, allows the public to have sufficient time to review the proposal and provide meaningful comments, and for the City to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Linda R. Larson

Subject: EFSEC"s Land Use Consistency Hearing for Tesoro Savage Vancouver Oil Terminal (Application No. 2013-01)
Date: Tuesday, May 20, 2014 12:00:24 PM

May 20, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful

comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Mr. John Wadsworth

Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful

comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Ms. michele dickson

Subject: EFSEC"s Land Use Consistency Hearing for Tesoro Savage Vancouver Oil Terminal (Application No. 2013-01)
Date: Tuesday, May 20, 2014 4:00:53 PM

May 20, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful

Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful

comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Mr. Douglas Richardson

Subject: EFSEC"s Land Use Consistency Hearing for Tesoro Savage Vancouver Oil Terminal (Application No. 2013-01)
Date: Tuesday, May 20, 2014 9:01:06 PM

May 20, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful

comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful

comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Kenneth Wanderer

Subject: EFSEC"s Land Use Consistency Hearing for Tesoro Savage Vancouver Oil Terminal (Application No. 2013-01)
Date: Wednesday, May 21, 2014 11:17:17 AM

May 21, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful

comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful

comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Mr. Richard Mackin

Subject: EFSEC"s Land Use Consistency Hearing for Tesoro Savage Vancouver Oil Terminal (Application No. 2013-01)
Date: Wednesday, May 21, 2014 5:18:49 PM

May 21, 2014

EFSEC

I request that EFSEC cancel and reschedule the land use consistency hearing for the proposed Tesoro Savage Vancouver Energy Distribution Terminal, which is currently scheduled for May 28, 2014.

EFSEC published its notice about this hearing in the Columbian newspaper on May 14, 2014. That leaves the public only fourteen days to review the project, which includes a holiday weekend. EFSEC has failed to provide me and other members of the public with a sufficient amount of time to review Tesoro's application (which exceeds 2,400 pages) for consistency with the City of Vancouver's land use laws (more than 1,300 pages of which may be relevant). The short notice period impedes my ability to provide meaningful testimony to EFSEC.

In addition, EFSEC's hearing notice fails to specify the mailing address and email address for submitting written testimony. Similarly, the public notice fails to state whether EFSEC will accept written testimony after the hearing. EFSEC's failure to include this information undermines public input on land use consistency. It should be expected that more public participation will occur through written testimony than oral testimony. This is because of a number of factors, including scheduling conflicts that may hinder attendance at public hearings, some individuals' preferences for filing testimony in writing as opposed to speaking in front of a large crowd, the short amount of time allotted for each individual to speak at a public hearing, and the limited number of individuals who can testify in a single evening. When EFSEC reschedules the hearing, it should clarify the procedures for submitting written testimony.

I am also concerned that the early scheduling of this land use consistency hearing would be inconsistent with state and local laws that require EFSEC to make the environmental impact statement (EIS) available for this project prior to holding a hearing. The EIS will include information that informs the public and decision-makers about the project's potential environmental impacts. This information is necessary, vital, and legally required to be part of EFSEC's land use hearing.

Similarly, EFSEC should provide the City of Vancouver a sufficient amount of time to review the project, including a comment period for the public to address the city, before the city reaches any conclusions about whether the proposal would be consistent with the city's laws. A fourteen-day notice period is woefully inadequate for the city to complete this process.

For these reasons, I respectfully request that EFSEC cancel the May 28 hearing and reschedule it to a later date with appropriate advance notice, taking into consideration the strong need for the public to have sufficient time to review the proposal and provide meaningful

comments, and for the city to complete its review in accordance with its procedures. Thank you for your attention to this matter.

Sincerely,

Ms. Rebecca Dondlinger
