

Workgroup Updates

Oct 1, 2020

ANTHROPOGENIC EMISSIONS

- 2017 NEI Point/Nonpoint scheduled for install on AIRPACT-5
- Pick back up work on AIRPACT-6 (SMOKEv4.5)

WILDFIRE EMISSIONS

- New Fire Information System (BlueSky) now used for AIRPACT
 - Continued use of 1/3 adjustment on acres
 - Continued use of seasonal Rx adjustment
 - FIPS no longer available
 - georeference lookup function (1 second per request) was not fast enough during intense WF events
 - currently all bluesky fire is going to San Juan county for monthly emissions summary.
 - python geopandas spatial join function currently underway
