- One last point I forgot to mention in my presentation, especially for anyone that is interested in Cyber Threat Intelligence: Twitter is one of the best places to keep up to date with the latest information on threats as you can follow security researchers that will potentially post updates in real time. Some of the best people to start for that (in addition to Katie Nickels) is Kevin Beaumont (https://twitter.com/GossiTheDog) and Jake Williams (https://twitter.com/MalwareJake) .
