## Panelist Questions:

- Can you share where you're from and how you made your way to SEL?

- What has your career path looked like?

- What do you do for your role now?

- Considering Cybersecurity, what have been your key takeaways from working at SEL?

- What would you say are the 2-3 most important things to consider or study when looking at a career in Cybersecurity focused field?

- Is there anything that surprised you about working in the industry that you didn't expect?

- What are ways that SEL prioritizes cybersecurity?

# SEL Manufacturing Tour & Visitor Access

## Manufacturing Tour

Wear solid shoes (avoid sandals or boots) in order to accommodate ESD protection foot straps. PPE will be available if it is required. Cameras, cell phones, and other electronic devices are not allowed on the manufacturing floor. If you require a specific photo please ask your host, who will request permission. Lockers are available to securely store personal belongings during your tour.

## Smoking

SEL is a non-smoking campus. Please note smoking and vaping within 30 feet of public building entrances is prohibited by state law.
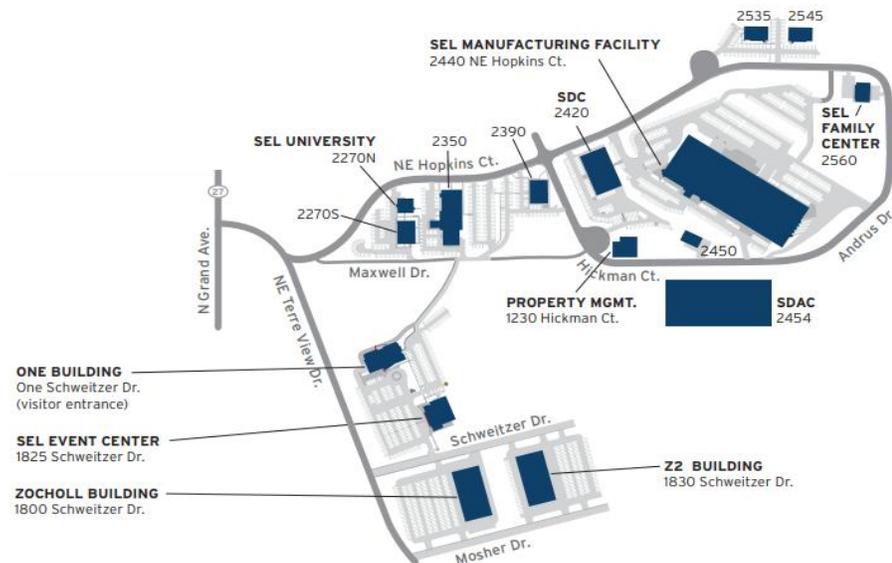

## Flash Drives

SEL takes security of computers, networks, and information systems seriously. All flash drives must be scanned for viruses prior to their use on SEL computers. Virus scanning stations are located in the lobby area of each SEL building. Please notify your visit coordinator if you plan to use a flash drive to share information on SEL computers during your visit.

## Access

SEL is a closed facility and visitors must be accompanied by an SEL employee at all times.
