Meeting ID: 223 376 988 762 276 7| Passcode: sw2ve73p

Abstract:

The VICEROY program offers two internship opportunities for VICEROY Scholars or active ROTC students: MAVEN and ENVOY. The MAVEN internship is "a summer internship that fast-tracks students' competency in cyber-spectrum, providing hands-on professional development experiences within national security, U.S. military culture, leadership, research, and operations." The ENVOY internship is "a cyber-spectrum summer internship engaging students in real-world mission-driven operational projects pertaining to U.S. national security, with some roles requiring a Secret clearance and potentially leading to permanent placements." Both internships are designed to offer leadership development, networking opportunities, and community engagement. In this seminar, we will hear from four WSU VICEROY Scholars who have participated in the MAVEN and ENVOY internships about their experiences and advice for new VICEROY Scholars.

Profiles:

Lauren Caruso
Mgmt. Inf. Sys., Class of 2026
MAVEN 2025
ENVOY 2026

Brandon Leiva
Cybersecurity, Junior
MAVEN 2026

Elliot Small
Computer Science, Junior
MAVEN 2026

Brady Zapf
Computer Science, Junior
MAVEN 2026
