The Murrow College CEREO Newsroom project is about to launch. Those chosen will be sent around the region and country to work side-by-side with environmental scientists conducting cutting-edge experiments and have the opportunity to profile their work and report on it to the public.

Awardees will receive one-on-one training from Murrow College professionals. They will receive a stipend for their work on the project. Their cross-platform presentations will be highlighted on the CEREO and Murrow College websites and possibly distributed to local and national organizations and broadcasters.

We are seeking students from StratCom, Com and Society and ComJour sequences!

DEADLINE for APPLICATIONS is January 31, 2015

Informational meeting January 21, 2015, Goertzen Hall 21, 4:00 p.m.

For More Information:

murrow.wsu.edu/BPE

Prerequisites:

- Murrow College Certification
- Graduation cannot be prior to December 2015 (Project runs from Feb. 2015 – Nov. 2015)
- Ability to travel as part of a team to cover and report on environmental and scientific projects (cost will be covered by project)
