

Red Cliffs Recreation Area Visitor Survey

Introduction

In order for the Bureau of Land Management (BLM) to comply with the Government Performance and Results Act (GPRA) and better meet the needs of the public, a visitor satisfaction survey was conducted at Red Cliffs Recreation Area, UT, during fiscal year 2024. The survey was developed to measure each site's performance related to Mission Area 3, Goal 2, Strategy 1 (as specified in the DOI 2023/2024 Annual Performance Plan) - *Enhance Public Satisfaction at DOI Sites by enhancing the enjoyment and appreciation of our natural and cultural heritage*. The information collected during the survey will also help the BLM better serve the public. The survey collected visitor satisfaction data regarding visitor information (i.e., use of maps, signs, brochures), developed facilities, recreation use management, resource management, BLM staff and service, programs, commercial recreation operations, educational and interpretive materials, fees, accessibility for visitors with disabilities, activities, and demographics.

The results of the visitor satisfaction survey conducted at Red Cliffs Recreation Area are summarized in this data report. A description of the research methods and limitations can be found on page two. Below (left) is a graph summarizing visitor opinions regarding the overall quality of their experience at this site. The satisfaction measure below (right) is a combined proportion of "good" and "very good" responses. This is the primary performance measure for GPRA Mission Area 3, Goal 2.1 and should be used when reporting performance for this goal. (NOTE: the satisfaction measure may not equal the sum of "very good" and "good" proportions due to rounding.)

The response rate for this survey site was 79%. This indicates that 79% of those randomly sampled completed the survey.

Overall quality of experience

FY24: 220 Respondents

FY24 Satisfaction measure: 98%
Mean score: 4.8

FY24 GPRA Satisfaction Measure

Proportion of site visitors satisfied overall with visitor information, facilities, management, interpretation/education, staff services, and programs:

98%

Red Cliffs Recreation Area Research Methods

Understanding the Results

Inside this report are graphs that illustrate the survey results. The report contains ten categories of data regarding BLM amenities, staff, and services plus selected demographics. Within these categories are graphs for each indicator evaluated by site visitors. For example, the Visitor Information category includes indicators such as "providing useful maps and brochures," "providing useful information on the internet," and so forth. In each category there is a graph entitled "Everything Considered." This graph is the basis for determining visitor satisfaction for each category and GPRA reporting numbers.

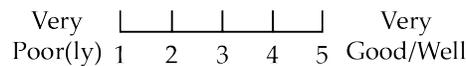

All graphs include the following information:

- The number of visitor responses for the indicator;
- The proportion of responses for each answer choice;

Graphs for quality indicators also include:

- A "satisfaction measure" that combines the proportion of total responses which were "Very good/well" or "Good/Well;"
- An average (mean) evaluation score where a number closer to five reflects a more positive visitor response;
- Quality indicators are based on the following scale:

"Very poor/poorly" = 1, "Poor/Poorly" = 2, "Average" = 3, "Good/Well" = 4, "Very good/well" = 5;

NOTE: Graph proportions may not equal 100% due to rounding.

Procedure

Surveys were distributed to a random sample of visitors at this site on 27 days between August 28 and September 30, 2024. The data reflect visitor opinions about this site's facilities, management, services, educational opportunities, and fees during the survey period. Visitor activities and selected demographics were also captured. A representative sample of the general visitor population were surveyed at selected locations. The results do not necessarily apply to visitors during other times of the year, or visitors who did not visit the survey locations on-site.

Visitors were given a choice between a paper version to be completed on-site, and an online option to be completed on-site or at a later date. Those visitors who chose the online option were given a postcard containing the access information needed for completing the survey online.

The results in this report are the combined responses from paper versions of the survey that were electronically scanned and responses completed online. Frequency distributions were calculated for each indicator and category using the

combined data. This BLM location completed 213 paper surveys and 22 online surveys.

The survey response rate is described on page one of this report. The number of respondents for each indicator is reported at the top of each figure. All proportions are reported as whole percentages while averages are rounded to the nearest tenth.

Caution is advised when interpreting any data with fewer than 30 responses. When this occurs, the word "CAUTION!" is included above the graph. This report excludes any graphs or calculations for questions with fewer than 10 responses. "NA" has been inserted in place of excluded satisfaction and evaluation calculations.

Based on the sample size of the survey at this BLM location, for most indicators, the survey data are expected to be accurate within $\pm 6.4\%$ of the population with 95% confidence. This means that if different samples had been drawn, the results would have been similar (by $\pm 6.4\%$) 95 out of 100 times.

Providing sufficient quantity of educational and interpretive materials about the resources

FY24: 156 Respondents

FY24 Satisfaction measure: 82%
Mean score: 4.3

Everything considered: How well the BLM provides interpretive and educational materials

FY24: 182 Respondents

FY24 Satisfaction measure: 88%
Mean score: 4.4

Red Cliffs Recreation Area Programs & Fees

Quality of program(s) attended

FY24: 14 Respondents

FY24 Satisfaction measure: 100%
Mean score: 4.8

Total fees paid

FY24: 200 Respondents

How appropriate was the fee charged for this site/area?

FY24: 135 Respondent(s)

The value of recreation opportunity and services was at least equal to the fee asked to pay

FY24: 127 Respondent(s)

Red Cliffs Recreation Area Commercial Recreation Operations & Activities

Quality of Commercial Services

FY24: 8 Responses*

FY24 Satisfaction measure: NA
Mean score: NA

Activities

FY24: 219 Respondents**

*Each respondent could rate up to three services.

**Percentages do not sum to 100 because respondents could select more than one activity.

Red Cliffs Recreation Area Demographics

Visitor age groups

FY24: 944 Visitors

Number of Adults (18 and over) in group

FY24: 219 Groups

Number of teenagers (13-17) in group

FY24: 219 Groups

Number of children (under 12) in group

FY24: 219 Groups

Respondent age

FY24: 218 Respondents

Respondent gender

FY24: 212 Respondents

Utah visitors came from 12 different counties

FY24: 101 Respondents*

County	Count
Washington County	50
Utah County	13
Davis County	12
Salt Lake County	12
Other counties	19

Visitors came from 30 states across the country

FY24: 181 Respondents

State	Count
UT	101
CA	12
WI	9
FL	5
NV	5
Other states	49

*The total number of visitors per county listed might be greater than the number of respondents because some ZIP Codes include more than one county

Red Cliffs Recreation Area

Accessibility for Visitors with Disabilities

How well the BLM provides access to adequately use recreation facilities

FY24: 14 Respondents

FY24 Satisfaction measure: 86%
Mean score: 4.6

How well the BLM provides access to adequately view exhibits, way-sides, information panels, etc.

FY24: 14 Respondents

FY24 Satisfaction measure: 86%
Mean score: 4.5

How well the BLM provides access to adequately view and use information (map, brochure, website, etc.)

FY24: 14 Respondents

FY24 Satisfaction measure: 86%
Mean score: 4.5

How well the BLM provides access to adequately use other visitor services (restrooms, water, etc.)

FY24: 14 Respondents

FY24 Satisfaction measure: 86%
Mean score: 4.6
