

## How to Write An Abstract

Following is a standard format for writing an abstract:

1-2	Sentences	Introduction
1	Sentence	Objective
1-2	Sentences	Experiment
1-3	Sentences	Results
1-2	Sentences	Conclusion

The abstract is the essence of the whole work in one paragraph (maximum of 250 words). It should summarize why the work was done and how, the results and conclusions, concluding with the significance.

Hope this helps. If you need any help, please let us know.
